

ICMLDE2024.024

Title of Special Session	Advances in deep learning for Earth observation data
Topics of Interest: Topic 1 Topic 2 Topic 3 Topic 4	The topics should be in the theme and scope of the ICMLDE 2024 conference <ul style="list-style-type: none">• Multi-sensor high-dimensional observation data engineering• Spatio-temporal tensor analysis of observation data• Deep learning for object-based image analysis of very-high resolution (<3m) observation data• Handling and integrating multi-source (ground-based, aerial-based, satellite-based) observation data tensors
Session Chair Name: Affiliations: Email:	Gopal Singh Phartiyal School of Earth and Environment, University of Leeds, UK G.S.Phartiyal@leeds.ac.uk
Co-Chairs Name: Affiliations: Email:	Shubham Awasthi Disaster Management Department, IIT Roorkee sawasthi@dm.iitr.ac.in
